Subject: 5 Year Public Hearing, 60W TIF

Attachment(s):

1. None

Action Options:

1. Open and Close Public Hearing
2. Other action Council may deem appropriate

Background:

RSMo. 99.865 requires a public hearing every 5 years after the adoption of a TIF Redevelopment Plan to determine if the project is making satisfactory progress. The public hearing satisfies the statutory requirement.

On May 6, 2015, the City entered into a redevelopment agreement with Sikeston Development Co., LLC regarding the Sikeston 60 West Tax Increment Financing Redevelopment Plan. The agreement requires the City to fund, subject to reimbursement from tax increment financing revenues, the extension of Hennings Drive, the extension of Stallcup Drive, and the construction of a new roadway connecting Hennings Drive and Stallcup Drive. The City uses tax increment financing revenues to reimburse Sikeston Development Co., LLC for certain other project costs. On May 2, 2016, the City entered into an amended and restated redevelopment agreement with Sikeston Development Co., LLC and Cotton Ridge Development Co., LLC regarding this redevelopment plan. Sikeston Development Co., LLC has assigned its interest in portions of the property in RPA I to Cotton Ridge Development Co., LLC. On August 19, 2016, Sikeston Development Co., LLC submitted a Certificate of Reimbursable Costs for \$800,000.00, the maximum approved. On December 9, 2016, Cotton Ridge Development Co., LLC submitted a Certificate of Reimbursable Costs for \$390,737.33. On December 27, 2018, Cotton Ridge Development Co., LLC submitted an additional Certificate of Reimbursable Costs for \$193,993.11. Total balance certified to Cotton Ridge Development Co., LLC is \$584,730.44. The developers are allowed 4.5% per annum interest on their costs. On each payment date, the City shall apply the TIF Revenues, first the sum of \$1,000 shall be retained by the City as an administrative fee, with the balance paid 46.7% to the City to be applied as provided in the Cooperation Agreement and 53.3% paid to the Developer for Reimbursable Developer Costs. Unless otherwise agreed to by the Developers, the TIF Revenues paid to the Developers shall be paid first to Sikeston Development Co., LLC until all their reimbursable costs have been paid and then to Cotton Ridge Development Co, LLC until all their reimbursable costs have been paid.

To the Mayor and City Council:

Subject: 2<sup>nd</sup> Reading, Bill #6213, Change in Excessive Strength Charge Fees for Commercial or Industrial Users for Wastewater Collection

Attachment(s):

1. Bill #6213
2. Recommendation Letter from Waters Engineering

Action Options:

1. Approve Bill #6213
2. Other Action Council May Deem Necessary

Background:

The current determination of rates does not represent the actual cost for excessive sewer discharges of strength and total suspended solids (TSS). Board of Municipal Utilities (BMU) propose the updated rate to prevent excessive sewer discharges that disrupt the sewer plant and to reimburse BMU for this disruption.

In addition to raising the strength and TSS surcharges, this ordinance will also add a strength multiplier for excessive strengths and allow the rate to be changed based on BMU's annual costs without having to draft another ordinance. The strength multiplier accounts for replacement and upgrade costs associated with high strength discharges. If proper pre-treatment is performed by the industries, they do not have to pay these surcharges.

Seeking Council's approval of this bill.

THIS BILL AS ADOPTED SHALL BECOME ORDINANCE NUMBER 6213, AMENDING DETERMINATION OF RATES FOR EXCESSIVE STRENGTH CHARGE FEES FOR COMMERCIAL OR INDUSTRIAL USERS FOR WASTEWATER COLLECTION.

WHEREAS, the current ordinance is outdated and the determination of rate does not represent the actual cost for excessive sewer discharges of strength and total suspended solids (TSS), and

WHEREAS, the purpose of the surcharge rate is to deter excessive sewer discharges that disrupt the sewer plant and to reimburse the utility for this disruption; and

WHEREAS, the excessive strength and total suspended solids can and does overload the sewer plant as well as rob the City of future growth; and

WHEREAS, in addition to raising the strength and TSS surcharges, this ordinance adds a strength multiplier for excessive strengths and also allows for this rate to be changed based on annuals costs without a total ordinance change; and

WHEREAS, the strength multiplier accounts for replacement and upgrade costs associated with high strength discharges. If proper pre-treatment is performed by the industries, they do not have to pay these surcharges.

NOW THEREFORE BE IT ORDAINED BY THE COUNCIL OF THE CITY OF SIKESTON, MISSOURI, AS FOLLOWS:

SECTION I: This ordinance shall be codified in Title VII Utilities, Chapter 725, Section 725.050 (4) Determination of Rates, of the Sikeston Municipal Code.

SECTION II: Title VII, Chapter 725, Section 725.050 (4) is hereby amended to read as follows:

**"Section 725.050 Determination of Rates.**

4. Commercial or industrial users shall be subject to an excessive strength charge in addition to the basic sewer service charge when the BOD or SS concentrations of a discharge exceeds three hundred (300) milligrams per liter (mg/L). All analyses shall be performed on composite samples collected over a twenty-four (24) hour period.

The excess strength charge shall be based upon the volume of wastewater and a wastewater strength factor. The wastewater strength is measured by the degree of organic pollution in the wastewater; the higher the strength, the more treatment costs the City.

The wastewater strength factor shall be calculated by the differential between the actual wastewater strength in mg/L and the allowable 300 mg/L all divided by 300 mg/L rounded up to the nearest whole number.

This strength factor is then multiplied by the following average treatment costs for a final excessive strength charge:

- a. Forty-nine cents (\$0.49) for each pound of excess BOD; and
- b. Seven cents (\$0.07) for each pound of excess TSS

These surcharge calculations may be revised annually based upon the previous fiscal year's wastewater treatment costs."

SECTION III: General Repealer Section. Any other ordinance or parts thereof inconsistent herewith, are hereby repealed.

SECTION IV: Severability. Should any part or parts of this Ordinance be found or held to be invalid by any court of competent jurisdiction, the remaining part or parts shall be severable and shall continue in full force and effect.

SECTION V: Record of Passage.

A. Bill Number 6213 was introduced to Council and read the first time this 30<sup>th</sup> day of November 2020.

B. Bill Number 6213 was read the second time this 7<sup>th</sup> day of December 2020, discussed and voted as follows:

Re: User Charge Modifications  
Wastewater Treatment

Dear Jeff:

Attached is the recommended modifications to the User Charge Ordinance.

As you know the previous excessive strength charges had not been modified in an unknown time period and did not cover your basic costs incurred to date.

The average treatment costs were calculated from your 2020 Sewer Production Costs of \$952,885.20. This was divided into the BOD, TSS, and Flow which were 80%, 10%, and 10% respectively. This was also based upon your 2020 average flow of 2.33 million gallons per day and resulted in an average BOD cost of \$0.49 per pound of BOD and \$0.07 per pound of TSS.

Not taken into account in this average treatment costs were equipment replacement costs as well as upgrades that could be required for high strength wastes. Should a user continuously discharge a high strength waste, it could overload the capacity of the treatment plant which will cause the plant to exceed the discharge limits. This in turn will require upgrades be made to the treatment plant. These upgrades will have a cost that then must be passed to the users through increases in the user costs or in fees to the high strength dischargers.

The Strength Factor was included to account for these replacement and upgrade costs that would be associated with the high strength discharges.

Please call if you have any questions regarding this invoice or this project.

Sincerely,
